American College of Physicians

IT

Dr. Addis Costello was a Milwaukee area physician and leader who worked tirelessly during his lifetime dealing with the issues of quality medical practice as well as the socioeconomic concerns affecting the practice of internal medicine. He was the consummate internist and it has been noted that his patients' loyalty to him was almost 'fanatical'.

He completed his internship at St Joseph's Hospital in Milwaukee and his residency and fellowship at Mayo Clinic in Rochester, Minnesota. He returned to serve on the medical staff of St Joseph's Hospital from 1955-1980.

Dr. Addis Costello, a Fellow in the ACP, was also a long-time member of the Wisconsin Society of Internal Medicine. He served as President of the Wisconsin Society of Internal Medicine in 1971. He was very active in the Medical Society of Milwaukee County and served as Chairman of the Physician's Alliance Committee of the Wisconsin State Medical Society. In 1978, he received a Special Recognition Award from the national American Society of Internal Medicine for his work in peer review and continuing medical education. Dr. Costello published frequently primarily on

Each year, the Wisconsin ACP Chapter honors an ACP member internal medicine, by presenting them with the "Addis Costello Internist of the Year Award".

Dr. Helen Aird Dickie was the first African American to graduate from the College of Physicians from the state of Wisconsin, having received that honor in 1974. Born in 1913 in North Freedom, Wisconsin, Helen Dickie later graduated number one from her University of Wisconsin Medical School class of 1937. She completed her residency and specialty training in pulmonary medicine at the Los Angeles County Hospital and TB Center. She

joined the faculty of the University of Wisconsin Department of Medicine in 1942. She served as the Chief of Pulmonary Medicine from 1973-83. She maintained her dynamic teaching abilities after retirement and was Professor Emeritus at UW until her death.

Her work on immunology and the treatment of tuberculosis, the infectiousness of histoplasmosis to laboratory workers, the pathophysiology of farmer's lung and hypersensitivity pneumonitis made her a renowned national expert on the topics. Dr. Dickie was considered a world expert on interstitial lung diseases and, during her time, she "wrote the chapters on diffuse lung disease".

She chaired the National Heart and Lung Institute's task force on lung disease. She served as President of the Wisconsin Lung Association and the Wisconsin and Mississippi Valley Thoracic Societies.

She has been described as a superb clinician and teacher and is credited with publishing scores of journal articles and a number of book chapters. She received the Laureate Award from the Wisconsin ACP chapter in 1987.

The Wisconsin ACP Chapter's "Woman Physician of the Year Award" is named in honor of Dr. Helen Dickie.

Born the 10th of 14 children, Sharon L. Haase was born in Beaver Dam, Wisconsin. She was raised on the family farm in rural Juneau, WI. She married a Beaver Dam man and moved to their current Beaver Dam farm in June of 1974, after graduating from Michigan State University with a BS degree in Medical Technology. She worked at the Beaver Dam Hospital in Medical Technology along with coordinating its School of Medical Technology prior to entering Medical School. She commuted to the University of Wisconsin in Madison for Medical School and Internal Medicine Training while farming and raising her 3 children. In Medical

School she was AOA and received their distinguished award for "Clinical Promise."

In 1988 she established a solo practice in Comprehensive Internal Medicine in Beaver Dam, where she practiced for over 33 years. In 1989 she was appointed head of the UW's 4th year preceptorship program in Beaver Dam, a position of leadership. The recipient of numerous leadership, clinical and teaching awards, she rose to the rank of UW Clinical Professor of Medicine. In 2011 she received a citation by the State of Wisconsin Legislature for excellence in medical care and education in the State of Wisconsin. Pictures of Dr. Haase teaching a medical student, as well as being part of the ground-breaking ceremony were incorporated onto the "Walls of History" when Beaver Dam Hospital opened their new Hospital.

Dr. Haase was an active and innovative member of the American College of Physicians and served many roles on the Wisconsin ACP Council for over 30 years. She was instrumental in changing the location of the State Physician of the Year Award, establishing the permanent headquarters of the Wisconsin ACP Chapter and using Videoconferencing for Statewide ACP Council Meetings. She received the WI ACP Chapter Laureate Award in 2011 and was awarded Mastership in the ACP in 2014. During her role as Chair of the WI ACP Women's Committee, she was instrumental in creating the Chapter's Women's Mentorship Program, the Chapter's story line, "In the Life & Times of This Wisconsin Doctor," and creating the "Advancement of Women's Health" Award.

The Wisconsin ACP Chapter's annual 'Advancement of Women's Health' Award is named in honor of Dr. Haase.

George E. Magnin was born and raised in Oconto Falls, Wisconsin. He attended the University of Wisconsin for undergraduate work and graduated from the University of Wisconsin Medical School in 1946. He completed his Internal Medicine internship at the University of Wisconsin then served two years in the US Navy prior to completing his Internal Medicine residency at UW.

He was responsible for starting the Internal Medicine residency at the University of Wisconsin 3rd and 4th year medical student rotations at the University of Wisconsin.

For many years his major effort was devoted to the teaching of medical students and women during this critical period of their medical training. The excellence of his teaching has been recognized by numerous awards based on evaluations by students, residents and colleagues.

The affection and esteem in which he is held by his colleagues is manifest in the numerous awards given in his honor.

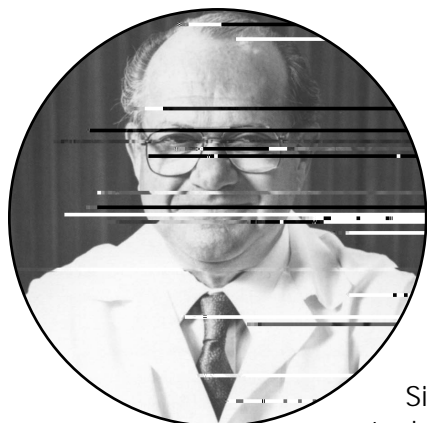

Dr. Magnin was a prominent leader in the Wisconsin Society of Internal Medicine and the Wisconsin ACP Chapter for many years. He received the ACP Chapter's, Distinguished Internist of the Year Award in 1981, the Addis Costello Award in 1986, the Chapter Laureate Award in 1990 and the rare Lifetime Achievement Award in 2004.

The Wisconsin ACP Chapter's annual Awards Luncheon is named in honor of Dr. Magnin. Dr. Magnin continues to live with his wife Anna in Marshfield, Wisconsin.

I

T

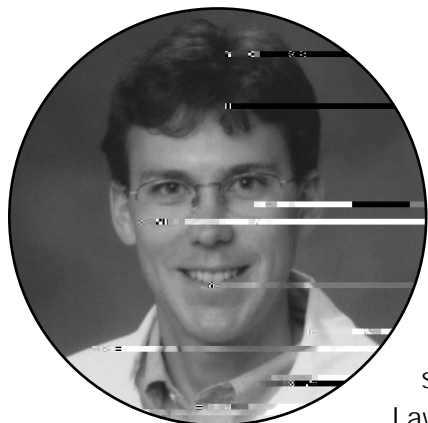

Edwin L. Overholt was born in 1923 in Chicago, Illinois. He graduated from the University of Iowa Medical School in 1948 and completed his Internal Medicine residency at Fitzsimmons Army Hospital in Denver, Colorado in 1952.

He went on to a distinguished career in the US Army, receiving the Silver Star for 'gallantry in action', due to his accomplishments as a member of 'Task Force Smith' during the initial battle of the Korean War. He became an expert in bacteriological warfare while conducting research for the US Army at Fort Detrick, Maryland in the late 1950s. He completed his Internal Medicine residency at Walter Reed Army Hospital in 1959. In 1964 at the age of 41 he became the Chief of the Department of Medicine at Walter Reed. He retired from the Army in 1968 after a 20 year career.

Later that same year. Within a year he had started an Internal Medicine program under his guidance.

Dr. Overholt was a member of the American College Physicians for nearly 50 years. He helped to form the Wisconsin Chapter and served as its president. He received the Laureate Award from the Wisconsin ACP chapter in 1992 and a 'Lifetime Achievement Award' in 2004. Even after he retired from practice he continued to make rounds with the medicine residents. In September of 2006 he lived by one of his favorite mottoes: "To teach is to learn".

The Wisconsin ACP Chapter's annual 'Clinical Vignette' competition is named in honor of Dr. Overholt.

Born in Wisconsin, Scott Sprtel was destined to leave his mark on the world from an early age. In high school he demonstrated the discipline and talent necessary to compete in the State High School track meet as well as to graduate in the top 10 students in his high school class of 1993. He attended Lawrence University in Appleton, WI, graduating Summa Cum Laude in 1997. He

went on to medical school at the Medical College of Wisconsin where he was noted to be an outstanding student, graduating AOA in 2001.

He completed his residency in La Crosse, WI later that same year. He quickly became recognized for his clinical skills which were "beyond his years" as well as his remarkable self discipline and relentless strive for excellence. Anyone who met Scott would quickly become aware that he was a young man who liked to get the most out of life.

Dr. Scott Sprtel's life was celebrated at the Wisconsin ACP chapter meeting in September of 2003. Later that month Scott's life tragically ended due to a bicycle accident on September 26, at the age of 28. For those whose lives he touched he set an example of excellence in everything he did.

The Scott Sprtel Fellowship is named in honor of Dr. Scott Sprtel.
